

**National Interagency Coordination Center
Incident Management Situation Report
Saturday, August 16, 2014 – 0530 MT
National Preparedness Level 4**

National Fire Activity

Initial attack activity:	Light (120 new fires)
New large fires:	2 (*)
Large fires contained:	1
Uncontained large fires: **	28
Area Command Teams committed:	0
NIMOs committed:	1
Type 1 IMTs committed:	7
Type 2 IMTs committed:	12

** Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

Two MAFFS C-130 air tankers and support personnel from the 153rd Airlift Wing (Wyoming Air National Guard) have been deployed to Boise, ID to support wildland fire suppression operations in the western U.S.

Northwest Area (PL 5)

New fires:	26
New large fires:	0
Uncontained large fires:	11
NIMOs committed:	1
Type 1 IMTs committed:	4
Type 2 IMTs committed:	6

Devils Elbow Complex, Colville BIA. IMT 2 (Nickey). Thirty miles west of Nespelem, WA. Timber and grass. Creeping and smoldering. Structures threatened. Evacuations and area closures in effect. Precipitation occurred over the fire area yesterday.

Upper Falls, Okanogan/Wenatchee NF. IMT 1 (Lund). IMT is also managing the Little Bridge Creek fire and the Carlton Complex. Seventeen miles north of Winthrop, WA. Timber, light logging slash and grass. Creeping and smoldering. Structures threatened. Area closures in effect.

Little Bridge Creek, Okanogan/Wenatchee NF. Ten miles west of Winthrop, WA. Timber. Moderate fire behavior. Numerous residences threatened. Area closures in effect. Precipitation occurred over the fire area yesterday. Reduction in acreage due to more accurate mapping.

Carlton Complex, Northeast Region, DNR. Started on private land seven miles south of Twisp, WA. Timber, light logging slash, brush and grass. Interior creeping and smoldering. Numerous structures threatened. Area closures in effect. Precipitation occurred over the fire area yesterday.

Hansel Creek, Southeast Region, DNR. IMT 1 (Schulte). IMT is also managing the Duncan fire and Chiwaukum Complex. Eight miles south of Leavenworth, WA. Timber and grass. Creeping and smoldering. Numerous structures threatened. Precipitation occurred over the fire area yesterday.

Duncan, Okanogan/Wenatchee NF. Fifteen miles northwest of Entiat, WA. Timber and grass. Creeping and smoldering. Numerous structures threatened. Road and area closures in effect.

Chiwaukum Complex, Okanogan/Wenatchee NF. Nine miles northwest of Leavenworth, WA. Timber, light logging slash and brush. Smoldering. Numerous structures, railroad and energy infrastructure threatened. Precipitation occurred over the fire area yesterday.

South Fork Complex, Prineville District, BLM. Transfer of command from IMT 1 (Lewis) to IMT 2 (Fillis) will occur today. Twenty miles south of John Day, OR. Timber and grass. Creeping and smoldering. Structures threatened. Area closures in effect.

Somers, Wallowa-Whitman NF. IMT 2 (Kidd). IMT is also managing the 5 Mile fire. Fifteen miles east of Imnaha, OR. Timber and grass. Minimal fire behavior. Structures threatened. Precipitation occurred over the fire area yesterday.

5 Mile, Wallowa Unit, Oregon DOF. One mile south of Imnaha, OR. Timber and grass. Minimal fire behavior. Last report unless significant activity occurs.

Staley Complex, Willamette NF. IMT 2 (Russell). Twenty-eight miles south of Oakridge, OR. Timber. Creeping and smoldering with isolated torching. Area closure in effect.

Snag Canyon, Southeast Region, DNR. IMT 1 (Turman). IMT is also managing the South Cle Elum Ridge fire. Started on private land 12 miles north of Ellensburg, WA. Timber, brush and grass. Creeping and smoldering. Numerous residences and energy infrastructure threatened. Evacuations and area closures in effect. Precipitation occurred over the fire area yesterday.

South Cle Elum Ridge, Okanogan/Wenatchee NF. Seven miles southwest of Cle Elum, WA. Timber, logging slash and brush. Creeping and smoldering. Residences threatened. Precipitation occurred over the fire area yesterday.

Haven Lake, South Puget Sound Region, DNR. Transfer of command from IMT 2 (Rabe) back to the local unit will occur on 8/18. Started on private land eight miles west of Skokomish, WA. Timber with heavy logging slash. Smoldering. Structures threatened. Reduction in acreage due to more accurate mapping.

Bald Sisters, Malheur NF. IMT 2 (Day) and NIMO (Quesinberry). Twelve miles east of Prairie City, OR. Timber. Smoldering.

Rogue River Drive, Medford Unit, Oregon DOF. Fifteen miles north of Medford, OR. Timber, brush and grass. Minimal fire behavior. Numerous residences threatened.

Camp Creek Complex, Rogue River-Siskiyou NF. Thirty miles northeast of Medford, OR. Timber. Minimal fire behavior. Last report unless significant activity occurs.

Bear Butte 2, Deschutes NF. Twenty-three miles southwest of Warm Springs, OR. Timber and grass. No new information. Last report unless significant activity occurs

Predictive Services Discussion: Widely scattered showers and a few thunderstorms will continue across the far northern Rockies. Afternoon thunderstorms will develop over the central and southern Rockies. Showers and thunderstorms will move across the northern Plains to the mid-Mississippi Valley, then spread into the Great Lakes region. Afternoon thunderstorms will develop across Florida. Cool to mild weather will remain over the northern half of the nation while the southern half continues in summer heat.

Roadside Incident Response

Vehicles/Roads Category

Nationally, the number of injuries and fatalities among emergency responders who are responding to roadside incidents is increasing at an increasing rate. Although most wildland fires occur in remote areas, there are situations where wildland fire personnel are responding to fires along rural country roads, jeep roads, or major highways; the risk still exists for our firefighters. Below is a checklist of considerations that should be utilized when responding to fires and other incidents along roadsides:

- Considerations
 - Firefighter and public safety will always be the number one priority.
 - Utilize L.C.E.S. in all incident activities.
 - Personal Protective Equipment will be used on all incidents.

- **Upon Arrival at the Scene**

Size up incident- see Incident Response Pocket Guide

- What has happened?
- What is happening?
- What will or could happen?
- Is this a HazMat situation?

- Risk Management Process-

Decision Point, Go No Go. See the Incident Response Pocket Guide, page 1

- **Tactical Considerations**

- Anytime traffic flow is affected by the incident, contact the jurisdictional law enforcement agency for assistance.
- Conduct all operations as far from traffic lanes as possible to provide for crew and public safety.
- Park units on the same side of the roadway whenever possible to avoid traffic congestion.
- Personnel do not exit the fire apparatus until instructed to do so by the module leader.
- Exit the fire apparatus away from the roadway or where hazard exposure is minimized.
- Exit the fire apparatus with full personal protective equipment.
- Post a lookout to watch for and control oncoming traffic.
- Utilize forward and rear spotters when visibility is impaired or road conditions warrant.
- Utilize and place road flares or other traffic warning signs whenever possible
- If equipment needs to be removed from the traffic side of the apparatus, one person will retrieve the equipment and a lookout will watch for oncoming traffic.
- Engine operators will operate pumps from the non-traffic side or from the cab of the apparatus when possible. Keep all hose, fire tools, and equipment out of traffic lanes when possible.
- During night operations utilize reflective clothing, vests and other safety equipment as necessary.
- All emergency responses on roadways will be concluded as quickly as possible to reduce personnel exposure.
- Cancel or demob unnecessary apparatus as soon as possible.

- *** Each agency emergency vehicle operator will follow their particular state laws and agency policies governing the operations of emergency vehicles.*
